

Dominick Rowan

The Ohio State University

rowan.90osu.edu

0000-0003-2431-981X

EDUCATION

2020 – Present: Ohio State University, PhD in Astronomy

2016 – 2020: Haverford College, Bachelor of Science: Physics & Astronomy

Undergraduate Thesis: *A NICER View of the X-ray Background*

Departmental High Honors

Magna Cum Laude

AWARDS & HONORS

- Ohio State University Presidential Fellowship (2024 – 2025)
- David Will Prize in Astronomy (2023): *Recognizes a student or postdoctoral researcher in astrophysics who is conducting an exceptional research program in computational astronomy, survey astronomy, data science, or other related topics.*
- AAS Chambliss Honorable Mention (2023)
- NSF GRFP Honorable Mention (2021)
- Ohio State University Fellowship (2020)
- Louis B. Green Prize in Astronomy (2020): *Awarded in honor of Louis B. Green (1911-1999), a Haverford Professor of Astronomy from 1941 to 1976, who inspired generations of students. These prizes are given to the students who go above and beyond in their contributions to the departments as well as showing excellence in research.*
- Inducted into Phi Beta Kappa Honors Society (2020)
- KINSC Summer Scholar (2017)

PUBLICATIONS — 10 as first author, 1 as second author, 10 as contributing author

PRESENTATIONS

Contributed Talk, TESS Science Conference III, Cambridge, MA. *Measuring Fundamental Stellar Parameters with ASAS-SN Eclipsing Binaries.*

Contributed Talk, Cool Stars 22, San Diego, CA. *Measuring Fundamental Stellar Parameters with ASAS-SN Eclipsing Binaries.*

Talk, Caltech Tea Talk, April 2024, Pasadena, CA. *Measuring Fundamental Stellar Parameters with Eclipsing Binaries.*

Talk, Penn Journal Club, April 2024, Philadelphia, PA. *Searching for Non-Interacting Black Holes in the Binary Zoo.*

Talk, Princeton Thunch, February 2024, Princeton, NJ. *Searching for Non-Interacting Black Holes in the Binary Zoo.*

Talk, University of Michigan SPF Meeting, November 2023. Ann Arbor, Michigan. *The Value-Added Catalogs of ASAS-SN Eclipsing Binaries.*

Talk, Harvard-Smithsonian Center for Astrophysics ITC Luncheon, March 2023. Cambridge, Massachusetts. *The Value-Added Catalog of ASAS-SN Eclipsing Binaries*

Virtual Talk, University of California Santa Barbara, March 2023. *The Value-Added Catalog of ASAS-SN Eclipsing Binaries*

Poster presentation, American Astronomical Society, 241, Jan 2023. Seattle, Washington. *The Value-Added Catalog of ASAS-SN Eclipsing Binaries*

Poster presentation, TESS Science Conference II, Aug 2021. Virtual Meeting. *A Systematic Search for Ellipsoidal Variables with ASAS-SN and TESS*

Poster presentation, American Astronomical Society, 237, Jan 2021. Virtual Meeting. *A Systematic Search for Ellipsoidal Variables in ASAS-SN*

Poster presentation, American Astronomical Society, 235, Jan 2020. Honolulu, Hawaii. *A NICER View of Spectral and Profile Evolution for Three X-ray Emitting Millisecond Pulsars*

Talk, Haverford College Physics & Astronomy Symposium, Dec 2019. *A NICER View of the X-Ray Background*

Poster presentation, Haverford KINSC Summer Research Symposium, September 2019. *Phase-Resolved Spectra of Millisecond Pulsars with NICER X-ray Observations*

Poster presentation, International Pulsar Timing Array, June 2019. Pune, India. *Phase-Resolved Spectra of Millisecond Pulsars with NICER X-ray Observations*

Poster presentation, American Astronomical Society, 234, Jan 2019. *Pulsating and Eclipsing White Dwarfs Discovered from Time-Series GALEX Observations*

Talk, University of Hawaii Institute for Astronomy Summer Research Symposium, August 2018. *White Dwarf Variability in GALEX Observations*.

Talk, Keck Northeast Astronomy Consortium, October 2017. *Mapping Faraday Rotation Measures onto High Velocity Cloud H288*

OUTREACH AND MENTORSHIP

Ohio State Summer Undergraduate Research Program 2024:

Student: Brayden JoHantgen

Project Title: Searching for Big Dipper Stars in ASAS-SN

Ohio State Summer Undergraduate Research Program 2023:

Student: Jowen Callahan

Project Title: Determining the Masses and Radii of Heartbeat Stars

“Polaris” undergraduate physics and astronomy mentorship program, 2021, 2022, 2023

“Zenith” SciAccess Blind & Visually Impaired Astronomy Mentorship Program, 2020.

Haverford College Public Observing Co-Head, 2019-2020.

Organized observatory open-house events for the local community and private events for small groups/high schools. Led observations with the 12” and 16” telescopes, ran science demonstrations and gave talks

OBSERVING EXPERIENCE

Large Binocular Telescope: PEPSI and MODS (6 nights)

Public Observing facilities: Schmidt-Cassegrain 8”, 12”, and 16” telescopes at Haverford

Observational Astronomy (ASTR341): Green Bank 20m radio telescope, 40ft radio telescope

University of Hawaii IfA REU: UH 88inch telescope (4 nights)

ACCEPTED PROPOSALS: 8 as principal investigator, 6 as co-investigator

Large Binocular Telescope:

“Observing Non-Interacting Compact Object Companions”

PEPSI, Co-I: 2022A; PI: 2022B, 2023A, 2023B, 2024A – total of 60.1 hours

“Mass Measurements of Eclipsing Red Giants”

PEPSI, PI: 2023A, 2023B, 2024A – total of 31.2 hours

“Mass Measurements of Low Metallicity Eclipsing Binaries”

PEPSI, PI: 2024B – 14 hours

“Hidden in Plain Sight: A black hole in the Delta Geminorum system?”

LBTI, PI: 2024B – 2.5 hours

“Hidden in Plain Sight: Direct Imaging of Non-Interacting Black Hole Candidates”

SHARK-VIS, PI: 2024B – 3 hours

Automated Planet Finder Telescope:

“Searching for Non-Interacting Compact Object Companions in Spectroscopic Binaries”

Co-I: 2022B, 2023A, 2023B, 2024B – total of 280 hours

“Determining the masses and radii of evolved stars in detached eclipsing binaries”

Co-I: 2023B – 40 hours

“Finding Black Holes in Gaia’s Spectroscopic Accelerators”

Co-I: 2024A – 70 hours

“Measuring masses and radii of low-metallicity eclipsing binaries”

PI: 2024A – 20 hours

Transiting Exoplanet Survey Satellite:

“Measuring Fundamental Stellar Parameters of Low-Metallicity Eclipsing Binaries”

PI: Cycle 7 GI – \$70k
